

REAL AUNT'S DRIVE YELLOW VOLKSWAGONS

- Chapter 1: Vehicles real aunt's drive
- Chapter 2: Names real aunt's have
- Chapter 3: Places real aunt's live
- Chapter 4: Jobs real aunt's hold
- Chapter 5: Places real aunt's visit
- Chapter 6: Friends real aunt's have
- Chapter 7: Close relatives real aunt's have
- Chapter 8: Books real aunt's read
- Chapter 9: Things real aunt's like to do
- Chapter 10: Things real aunt's love to eat

This book is dedicated to my own Real aunt Jean Anderson.

With Love,
Doug Davis

Chapter 1

VEHICLES REAL AUNT'S DRIVE

Real aunt's drive yellow Volkswagons

Real aunt's drive yellow Fiat Spiders

In general real aunt's love to drive small yellow cars.

Chapter 2

NAMES REAL AUNT'S HAVE

Real aunt's are often named Jean

Real aunt's are also often named Betty

And a few real aunt's are named Lisa

Real aunt's are often fond of short or right to the point names or some even enjoy those that describe their personality, take Jean for example that certainly describes a personality it tells you that the person is a typical female with a easy going life style. But Betty is one of those names that is short and sweet it describes the person as possibly cute.

The name Lisa is a name that is right to the point it tells you that the person is strong and firm at heart and accepts defeat gracefully.

Chapter 3

PLACES REAL AUNT'S LIVE

Some real aunts live in Belmont, California
While others live in Fort Worth, Texas
~~Yet~~ alas a few live in Mahomet, Illinois

For the most real aunt's live in large suburban cities I can understand you probably living in a large city yourself your not having heard of Mahomet, Illinois after all why should you have it's not on any maps except maps of the town itself but I suppose after I make it big in the book writing industry since I know you will show this to all your friends it will be known all around the globe for in it lives me author of such great books as OTTO THE OTTER and this REAL AUNT'S DRIVE YELLOW VOLKSWAGONS the town will thrive and prosper off of the money I bring in from you and your friends buying my books.

Chapter 4

JOBS REAL AUNT'S HOLD

Many real aunts hold jobs as teachers, while many are drama teachers and a few like to be Kenny Woodward's wife (Lisa Davis) as learned from a candid interview with the lady herself, the interview:

RADYV: "When did you first decide to marry Kenny Woodward?"

Ms. Davis: "Well I'm not positive but I think it was the 4 of January 1983."

RADYV: "Does he know you plan to marry him when you grow a few years older?"

Ms. Davis: "Yes we both decided on that wonderful day in January."

RADYV: "So he does approve of it?"

Ms. Davis: "Yes of course he does!"

RADYV: "Does your father know of these plans?"

Ms. Davis: "No, not just yet but we plan to tell him soon."

RADYV: "Well we are about out of time so may I take this moment to wish you the best of luck!"

Chapter 5

PLACES REAL AUNT'S VISIT

A popular vacation spot or weekend getaway spot among many real aunt's is England, sound extravagant? It may be but on a teachers pay as that is the job most real aunt's hold they like to spend most of their time as far away from the place of education as they can.

Also Boston is a favorite spot among many real aunt's, especially those that are married to men named Kenny Woodward.

What may you find in Europe if you are a real aunt you may ask? Well if you are unmarried as most real aunt's are you may find the love of your life and if you already are married you will most likely find a new taste or treat that

Not that Boston doesn't have a lot to offer because it does, it can show you the sight at which Paul Revere gave his famous midnight ride and it has many other sights you can see both of these places are popular and are recommended by our local travel expert Doug Davis if you have a chance to visit either of these attractions have a great time.

Chapter 6

Friends Real Aunt's Have

A lot of real aunt's have friends with names such as Ruth, Darla or maybe Kristin or even possibly Dawn.

In general most of the friends that real aunt's have hold positions as a school worker whether it be a teacher or a principal, or even a student others may teach drama or music.

Although some do have hopes to join the navy, army, air force, or marines but I am not sure that any woman let alone an aunt could join the marines I just put that in there to make it sound better.

Chapter 7

Close Relatives Real Aunt's Have

Most real auntshhave close relatives if they don't there is something wrong,because everyone (not excluding real aunt's) should have at least one close relative,whether it is a cousin,sister,niece,nephew,or brother etc.

All close relatives have one purpose and that is to be loved (sentimental isn't it).

One of the more popular versions of a close relative is the nephew for only one reason that is they are loveable,cute,funny,kind,and love stuffed animals oops I kind of went overboard on that list but I couldn't stop thinking of reasons.

Well I've said enough about relatives so on to the next chapter!

Chapter 8

Books Real Aunt's Read

There is not alot of differance in the type of books real aunt's read,one thing you can tell about real aunt's is that they are interested in themselves,I know this from the fact that you being a real aunt yourself are reading this book .And if you aren't a real aunt than you are interested in them.

Chapter 9

Things Real Aunt's Like To Do

Many real aunt's enjoy visiting close relatives (referred to in chapter 7) while others might enjoy a trip to the ppera or the theater to see a Shkespear play still others like the zoo or maybe if they have some time to spare a trip to the bowling alley (pun intended).

But most just like to have some fun no matter what the activity might be.

One other thing some like to do is read books written by young nephews that have the word aunts spelled wrong every time.

Chapter 10

Foods Real Aunt's Love TO eat

This being the last chapter of the book it seems like it should be the longest but to list all of the foods real aunt's love to eat I would have to write another ten pages worth which I hate to say I am not in the mood for so I would just like to say thanks to my four helpers one, my REAL AUNT for giving me the inspiration, two my Smith Corona for typing it for me three my brain for coming up with all the wonderful ideas put into this book and four my fingers for not stopping the typing when the going got rough.
